

# Seen Through My Eyes

Sacred Reich

In this life there is no truth  
When you search for middle ground  
You will find no absolutes

In your search for black and white  
You'll find that things fall to the shadows  
This is where your answers lie

But for this ain't enough  
You just have to keep on pushing  
Man your life will be real tough

Seen through my eyes

Idealism clings to you  
You know the answers out there  
somewhere  
Cut the lies and find the truth

It's a lonely road you walk  
When you decide to take the high road  
Find a lot of people bought

But my hat comes off to you  
Gettin up every day  
After all that you've been through

Seen through my eyes

When you decide to take the high road  
Find a lot of people bought

Getting up every day  
After all that you've been through

Seen through my eyes
