

Supremacy

Sacred Reich

I and I alone
You I can't condone
Don't you see what I mean
It's all laid out simplistically
You won't even have to think
You'll just hear the words I speak

What you don't agree
Where is your morality
Questioning authority
leads to the road depravity
Undesirable impurity questioning
Supremacy

Abuse of power
In an ivory tower
When you are so far removed
Issues seem to confuse
When you are so far removed
Issues seem to confuse
What is right you try to choose

Abuse of power you can't lose
Don't you see what I mean
Led around so blindly
Influence of majority
Racist attitude is stupidity
Don't you see what I mean
There must be equality
When we're cut we all bleed
There is no supremacy

What you don't agree
Where is your morality
Questioning authority
leads to the road depravity
Undesirable impurity questioning
Supremacy

I and I alone
You I can't condone
Don't you see what I mean
It's all laid out simplistically
You won't even have to think
You'll just hear the words I speak
