

# The Power of the Written Word

Sacred Reich

Take the chance to manipulate  
Thier truth is simply what they create  
They'll put words inside you mouth  
Have no chance to spit them out

What you read  
What you see  
What you think  
Form their thought  
From their view  
From their ink

Opinions expressed are their views  
Colored versions of the truth  
It is fine to say what you think  
Why belive every word you read

What you read  
What you see  
What you think  
from their thought  
From their view  
From their ink

Don't belive a word they say  
you know it never could be true  
Anything they do or say is onlymeant  
to mislead you  
Don't belive a word they say  
They're only trying to get control of you

Take the chance to manipulate  
Their truch is simply what they create  
They'll put words inside you mouth  
Have no chance to spit them out

What you read  
What you see  
What you think  
From their thought  
From their view  
From their ink
