Sacred Steel

Faces of the antichrist

Judgement is nigh  
Lord let me die  
I wish for death and you know the reason why  
Horrors veset a sanity wrecked  
I can no longer stand the vile beasts attack

He's in my mind  
He's in my dreams  
Oh lord he's everywhere  
Won't you hear my screams

Satan - in that is I see his eyes  
Evil faces of the antichrist  
Satan - all around his kingdom lies

Evil faces of the antichrist (all around me)

I'm bound to sin  
Satan within  
I need to flog myself before lord satan wins  
Dare not to think  
Dare not to act  
Their lore of hell for sure's a curse I must reject

Have mercy - set me free - have mercy - leave me be

I know not joy  
I know not peace  
For everywhere I sense the labour of the beast  
Forgive my sin  
I've lost the fight  
Nearer my god to thee  
Bless my suicide
