

# Sacred Bloody Steel

## Sacred Steel

Hellbent my course  
I'll never care about your cries  
So strong my force  
This passion never ever dies  
Some say I'm false  
Some say I'm true as hell can be  
When my fate calls  
Upright I'll meet my destiny

I am not weak  
I chose to walk this path alone  
With iron in my heart and metal in my soul

Steel running through my veins  
A life of leather, spikes and chains  
Devotion pure and real  
Stand strong for my belief  
That guides me leads me through my dream  
Of sacred bloody steel

No need to change  
I live my dream I've found my way  
No debt to pay  
March on while posers fall astray  
All hail to steel  
Come live your dream  
No compromise  
Unbound and free  
Community of metal rise

Your hell is my heaven  
Damnation destiny  
Hell is my heaven  
In my damnation I am free  
Hell is my heaven  
Damnation destiny  
Hell is my heaven  
In my damnation I feel
