

Tonight the Witches Ride

Sacred Steel

A black Night, a cold Night
What Evil may this Darkness bring
A dark Storm upon us
The Ceremony is soon to begin
Their Master is waiting
And the Goat is an impatient Lord
A dark song the Wind sings

Come ye Children of Satan's black horde
Come to the Flame
Creatures of Evil are meeting again
Come to the Fire

To summon the Devil, our Lord and Messiah
Unholy Night
Mankind filled with Fright
Satan waits in Pride

Tonight The Witches Ride
A grim Night, a cursed Night
All Demons are joining the Call
Thee unborn, thee Hellspawn

Gathered to bring Death to us all
And I saw the Beasts of Earth
Feast upon the Souls of Man
And I saw their Son of God

Die like Sinners, die in Pain
