

We Die Fighting

Sacred Steel

Heavy as fuck indeed - We're metal to the bone
Scourge of you hypocrites - United we stand strong
To tell you once again - Our spite you'll get for this
We are your hell on earth - Repay the Judas kiss

Don't you know what waits for you
The mirror shows the final truth

We die !
But we die fighting
We die !
But we die fighting
We die !
But we die fighting
We die ! We fight and die !
But we die fighting

Your lies we shall deface - We'll show the world you're wrong
We'll face you once again in battle - Come along
And if we die, we know we fought for our belief
It is now all for one - In victory or defeat !

Don't you know what waits for you
The mirror shows the final truth

We die !
But we die fighting
We die !
But we die fighting
We die !
But we die fighting
We die ! We fight and die !
We die fighting

In death you'll find the truth ! In death you'll find the truth !

The end is drawing near - Our call to arms be heard
We'll stand and fight for truth - In heaven, Hell, on earth
Our weapon : sacred steel - Now taste the bloodred sword
Crushed by the battle axes - Blessed by the lords !

Don't you know what waits for you
The mirror shows the final truth

We die !
But we die fighting
We die !
But we die fighting
We die !
We die fighting
We die ! We fight and die !
We die fighting ! We die fighting ! Die !!
