

# Your Darkest Saviour

Sacred Steel

I am the one to guide your soul - The tempter they call  
me

The one beyond all you behold - The master of treason  
The force called wicked by their king - The liar - Upon  
his throne of suffering

I'll lift the burden of your guilt - you sinners  
Your dreams forbidden I'll fulfill

Black souls, black souls, black souls, I am the...  
Black souls, black souls, black souls, I am the...  
I am the guardian of black souls - Your darkest saviour  
I am the guardian of black souls - Come join me here

Aren't you tired of his reign - Come turn your back on  
him

And let your mind be free again - The return of reason  
Will mark the end of slavery - Rebel and take my hand,  
choose your destiny

I'll lift the burden of your guilt - you sinners  
Your dreams forbidden I'll fulfill

Black souls, black souls, black souls, I am the...  
Black souls, black souls, black souls, I am the...  
I am the guardian of black souls - Your darkest saviour  
I am the guardian of black souls - Come join me here

Damnation... Damnation...

Come join me, come join me, come join me (in) damnation  
Come join me, come join me, come join me (in) damnation

Cast out and branded by thy mark - Dark angel of heaven  
Sent from the light into the dark - To dwell in thy  
shadows

The scourge of all those who believe in thy words  
All fools obey, blinded, deceived

I'll lift the burden of your guilt - you sinners  
Your dreams forbidden I'll fulfill

Black souls, black souls, black souls, I am the...  
Black souls, black souls, black souls, I am the...  
I am the guardian of black souls - Your darkest saviour  
I am the guardian of black souls - Come join me here

Damnation... Damnation...

Come join me, come join me, come join me (in) damnation  
Come join me, come join me, come join me (in)  
damnation!!
