Minister By Night

Sacred Warrior

Thank you for your concern for my christian life Your prayers are deeply needed but let's put an end to this str ife

Yes, I've been seen in places that you'd only pass in daylight But that's our biggest difference we minister by night

We're out on the front lines, challenging everyone Surrounded by fruits of sin that consume your daughter or son We go in after them, they're in our sights But that's our gift in the darkness we'll shed the light

I minister by night in a heavenly show Taking the world to places, places that you would not go

So many other people are lost, they`re people you know

We minister by night in a heavenly show Taking the world to places, where Jesus had led us go

Yes, I've been seen in places that you'd only pass in daylight But that's our biggest difference we minister by night
