

Sword Of Victory

Sacred Warrior

Well I seem to find that the enemy attacks at a time you least expect it
So you better prepare, for the day will come, that your name will be elected
There'll be lots of pain and everything to gain, but death is the only way out

Then we all will walk in victory
With a sword in our right hand

Where will you be when the going gets tough, will you stand and fight like a man?
Will you follow through when the one from above says, "Here's my battle plan:

I will give you all of the strength you need and the courage to stand alone
If you fight for Me, there'll be victory, and a crown when you get home"

And we all will walk in victory
With a sword in our right hand
We will stand for all the world to see
That the truth has set us free

So where will you be when the going gets tough, will you stand and fight like a man?
Will you follow through when the one from above says, "Here's my battle plan:

I will give you all of the strength you need and the courage to stand alone
If you fight for Me, there'll be victory, and a crown when you get home"

Then we all will walk in victory
With a sword in our right hand
We will stand for all the world to see
That the truth has set us free
