

# Haunt Me

Sade

Haunt me  
In my dreams  
If you please  
You're breath is with me now and always  
It's like a breeze  
So should you ever doubt me  
If it's help that you need  
Never dare to doubt me

And if you want to sleep  
I'll be quiet  
Like an angel  
As quiet as your soul could be  
If you only knew  
You had a friend like me

So should you ever doubt me  
If it's help that you need  
Never dare to doubt me
