

# Spiral of Winter Ghosts

Sadist

Here they are again  
Taken by an icy wind  
They gently take place beside me

Winter days...once again  
Winter nights...as it's always been  
Winter days...this my time  
Winter nights...as it's always been

Feel the cold, see the frost  
Forgotten in my brain  
Can you see the winter ghost?  
Coming thru' the rain

Winter! [X2]

Here they are again  
Eager for my essence  
Warriors, bearers of peace  
Sinners and saints dressed in innocence

Winter days...this my time  
Winter nights...let'em come to me  
Winter days...once again  
Winter nights...let'em come to me

[REPEAT 1st VERSE]

I am so scared  
There's no disguise!

The spiral of winter  
Do you think it's enough  
To close a door?  
The spiral of winter  
To leave behind what is now!
