

Can't bring me down  
You can't kill me  
Can't sell me out  
Going to help myself now  
You can't fill me with what you want me to be  
No one will make me  
You can't change me  
I am my own man  
So fall by the hand of me  
No mercy from me  
Can't bring me down...so cold

Gone in your wasted mind  
Won't let you by  
So don't even try  
I'm done...  
No more thoughts of you  
I'm through with you  
I curse you dead  
Throw the hammer down  
I'm down...  
Burn in fucking hell  
Better hear what I say  
Get out of my way  
I'm wild in my fucking ways  
So cold...

You show to all your wickedness  
Pray for the life you'll miss  
A flash of white is what you get
