

## In Your Face

Sadus

You say you got a problem  
I say you want to die  
Confusion in your mind  
Terror solidified  
Violence indisplaced  
Fear in its place  
Tempest, yet blind in haste  
All right, I'm in your face  
Hostilities come to war  
Outbreak, a rush discharged  
Lash out your fuse is lit  
Go off, inflict the sick  
Violence indisplaced  
Fear in its place  
Tempest, yet blind in haste  
All right, I'm in your face  
Implode to the head  
Convulsive force of red  
Adrenaline rushing blast  
Inflamed fury's past  
Vindication,  
justification is done
