## **The Moment**

SafetySuit

From when I wake in the morning till I go and And I fall asleep each night I fight to hold onto a love that is inside Because my past is like a nightmare that I never can escape And I can't wait till I wake up so I can fall back asleep

And I don?t understand what happened between you and me But you will probably end up with someone half as good as me So I don?t care if you want to look in my eyes and say hello You were blind to me, now I?m blind to you, no

So now I wait for a moment when I know that there?s no one left to see All the hurt that?s inside me and the reason that I need I need to let go of the things, I see that have always let me f all And I cannot find my way home, no, because I?m already home

And I don?t understand what happened between you and me But you will probably end up with someone half as good as me So I don?t care if you want to look in my eyes and say hello You were blind to me, now I?m blind to you, no

Blind to me, blind to you

And I don?t know what you need but I know you?re listening now And I don?t care what you think because you didn?t think to car e about me And I don?t know what you need but I know you?re listening now And I don?t care what you think because you didn?t think to car e about me

And I don?t understand what happened between you and me But you will probably end up with someone you know that is half as good So I don?t care if you want to look in my eyes and say hello You were blind to me, now I?m blind to you, no

You were blind to me, now I?m blind to you
