

Things To Say

SafetySuit

Saturday came and gone
Walked right in
Now you're gone
Now I don't know where I belong
But it's with you

Sunday, Monday, Tuesday came
Thursday, Friday just the same
Now I'm back to find a way to say
Things I didn't say

And I would let you know
You can not walk away
Cause there are things to say
And I know that you lied
And I see this tonight
There are things to say
We have life to make

Walked these streets a thousand times
A thousand more if it helps me find
The place I was when you and I collided
When you walked off and I stood still
I wonder how our life would feel
If you looked back and I got to say things I didn't say

And I would let you know
You can not walk away
Cause there are things to say
And I know that you lied
And I see this tonight
There are things to say
We have life to make

And I would let you know
You can not walk away
Cause there are things to say
And I know that you lied
And I see this tonight
Cause there are things to say
We have life to make
