

# Over You

SAFIA

What do I gotta do?  
I tell her, why should I care?  
I wanna get over  
I wanna get over you

I never take a single breath of air  
I never drink when you're not there  
I wanna hold another, 'nother lover  
But you are not aware

I want a hope that I can find  
To ease my broken mind  
I wanna hide you under, under cover  
Till I don't recognize

What do I gotta do?  
I tell her, why should I care?  
I wanna get over  
I wanna get over you

I need to know the truth  
Cause you're blank when you stare  
I wanna get over  
I wanna get over you

Someone give me suddenly the sign  
Rewind this clock, replace my time  
I wanna find another, so I recover  
Recalibrate my eyes

I wanna fade from red to blue  
Replace the things you do  
Faithless lover, hide the clutter  
That comes along with you  
But I can't seem...

What do I gotta do?  
I tell her, why should I care?  
I wanna get over  
I wanna get over you

I need to know the truth  
Cause you're blank when you stare  
I wanna get over  
I wanna get over you

Over  
Over you  
Over  
Over you  
Over  
Over you  
Over  
Over you  
I wanna get over  
I wanna get over you
