Safri Duo

Did you really love me?
Did you really need me?
Or were you just using me?
Or were you just using me?

::Chorus::
I never felt so used, I wont go back to you. So leave me alone.

I wasn't good enough, it was never about us. So leave me alone.
 Alone. Come on!

I've had enough of your kiss.
The touch of your hand, I won't miss.
I've been wrapped up in all your crazy ways.
I'm caught up in your web of lies.
Gonna cut myself loose and say goodbye.

Bye. Bye. I don't want you. I don't need you. I don't want you.

::Chorus::
I never felt so used, I wont go back to you. So leave me alone.

I wasn't good enough, it was never about us. So leave me alone.
 Alone. Alone. So leave me alone.
Hey, Hey, Baby, Hey, Hey. Leave me. Leave me. Oh yeah.

Did you really love me?
Did you really need me?
Or were you just using me?
Or were you just using me?

::Chorus::
I never felt so used, I wont go back to you. So leave me alone.

I wasn't good enough, it was never about us. So leave me alone.
 Alone. Alone. So leave me alone.
Alone (Alone). Come on (Come on). So leave me alone. Alone.
