

## Don't Look Now

Saga

Are you ready for the big bang?  
And is it time for the real thing?  
Are you sure that you want it?  
And if you get it, will you flaunt it?  
There's so much more that you could do  
I think it's time for a breakthrough  
Looks as though you can taste it

Don't look now  
Just come and get, what are you waiting for?  
Don't look now  
You know you gotta know,  
You know you gotta know you've bin here before

Take a bite from the apple  
It's not too hard to handle  
Well I can tell that you want to  
Make a move or it'll haunt you  
What's in the mirror, can you see you?  
Can't let the lighting deceive you  
Here's your chance don't you waste it

Don't look now  
Just come and get, what are you waiting for?  
Don't look now  
You know you gotta know,  
You know you gotta know you've bin here before  
Don't look now  
There's nowhere else to go if you want some more  
Don't look now  
If you want it you can get it  
You think you're gonna stop but you need some more  
Do you want some more?

(repeat)
