

# Don't Put Out The Fire

Saga

Suffering in silence  
Your patience is climbing the walls  
You've tried to reach somebody  
But there's no answer when you call  
Burning with passion  
How long have you been this close to the edge  
You walk around in circles  
And hold back a silent scream  
You need to touch somebody  
Somebody you saw in a dream  
Burning with passion  
How long have you been this close to the edge  
[Chorus]  
You are burning with the heat of your desire  
And you may never feel this passion again  
So, don't put out the fire  
The way that you're behaving  
You'd think you've no will of your own  
But with a little imagination  
You'll never be alone  
Burning with passion  
How long have you been this close to the edge  
[Repeat Chorus]  
We may never ever feel this passion  
We may never ever feel this again  
[Repeat Chorus]  
We are burning with the heat of our desire  
And we may never feel such passion again  
So, don't put out the fire  
Feel the fire  
We may never feel this passion again  
Feel the fire
