

Goodbye

Saga

It all comes down to one
While staring at the sun
It all comes down to one
One I'll remember
The look in your eyes tonight
And I will always remember
The day that we finally said, goodbye
It all comes down to one
Just one heart
Full of pain and full of lies
But now, now I know
Love never dies
And I will always remember
The tears in our eyes tonight
And I will always remember
The day that we looked at each other and said...
Goodbye
