

# Goodbye

Saga

It all comes down to one  
While staring at the sun  
It all comes down to one  
One I'll remember  
The look in your eyes tonight  
And I will always remember  
The day that we finally said, goodbye  
It all comes down to one  
Just one heart  
Full of pain and full of lies  
But now, now I know  
Love never dies  
And I will always remember  
The tears in our eyes tonight  
And I will always remember  
The day that we looked at each other and said...  
Goodbye
