

## Gotta Love It

Saga

I know somewhere I'm there and on the mind  
Somebody must have really hurt you bad  
You do to others whats been done to you  
If you think thats right you must be mad  
What ever happened to the innocence  
You gotta tell me why  
You get this look that I don't recognize  
God only knows what you've become  
What ever happened to the innocence  
You gotta tell me why

Chorus

Gotta love it, gotta leave it  
You gotta have it but you really don't need it  
Won't be happy til you think you know it all  
{you} Gotta love it, gotta leave it  
You gotta have it but you really don't need it  
One day the sky will fall  
Night falls your off to finding company  
Must really hate to be alone  
You used to be so very versitle  
So what was it that turned your heart to stone?  
What happened to the innocence  
You gotta tell me why
