How are ya' feelin' now? How are ya' feelin' now? I've got some news for you You and your attitude Back off, I won't go near it Your world goes 'round & 'round You might be feelin' down But we don't wanna hear it Now you've seen better days It's written in your face You'll just have to grin & bear it No matter what you do It all comes down to you You are the one who wears it C'mon tell me, I'm listening How are ya' feelin' now? Year, that's what it's all about How are ya' feelin' now? Well, don't turn your upside down Be careful what you say Or we'll run the other way I don't mean to burst your bubble But, ya' carry a lot of weight Haven't you heard of fate. Or do you prefer the trouble? [repeat chorus] How do ya feel right now? Don't turn tour upside down [repeat chorus]
