

## How Long

Saga

You thought you had it in the bag  
Thought you had it all figured out  
But now you're having second thoughts  
You don't really know your ins from outs  
You won't accept the lot you've drawn  
You can't face the error of your ways  
You turned your back and walked away  
Seem bent on finding better days  
How long did your dream carry on  
How long did your dream spin around  
(repeat)  
You'd better grab your things and run  
All your friends have left you behind  
I have no answers for you now  
I just wish you had an open mind  
How long did your dream carry on  
How long did your dream spin around  
(repeat)
