

## My Friend

Saga

The winter now is finally passed  
I'm re-acquainted with my dreams  
all that was done yesterday  
the things that I believed  
I feel a new strength restored in me  
I wonder what you're thinking now  
or if you even see  
You wish that you could change the past  
Have you taken all you need  
I know that you're not laughing now  
[chorus]  
Many years have gone by my friend  
So many miles down the road  
The wheel still runs and I ride the spokes  
each new season brings  
[chorus]  
Darkness falls on behind me  
I'm starting now to find my way  
It's over now and you're nowhere near  
I still can't hear your name
