Out of the Shadows

Saga

There was a time
When I didn't mind
I'd do anything you wanted
I'd hide behind a frozen smile
I've turned a page and everything's changed
I'll finish what you started
You've left me no other way
[Chorus]
I'm not afraid to face the spotlight
I'm stepping out
Coming out of the shadows
I'm not afraid to face the daylight
I'm stepping out
Coming out of the shadows
But even now I feel somehow
I need you more than ever
To help me find my way
I just can't see myself
Hiding forever
I've got to break free from these chains
[Repeat Chorus]
[Repeat Chorus]
