

# Say Goodbye To Hollywood

Saga

You were a star  
You know you had it all  
You always had a way  
To leave them wanting more  
We thought we'd lost you  
You found an open door  
That air of confidence  
That needed no support  
(But it's okay) Say goodbye to Hollywood  
Don't you know we've come too far  
(My matinee) My heart breaks  
One more for the camera  
(Fade to gray) And say goodbye to Hollywood  
We were never who we are  
(My matinee) You will always leave me wanting more  
The future claimed you  
And you were left behind  
The road you traveled on  
Has broken down with time  
Gone but not forgotten  
To reappear some day  
You know I'm always here  
You'll never fall from grace  
Like a rhythm needs a dancer  
Just a shadow on the wall  
You know there was a time  
You know we had it all
