

See Them Smile

Saga

You can say your winter tan
Is fading much too fast
And you can say that all your clothes
Are tailor made to last
You can say your Gucci shoes
They really have the shine
And you can say that all your plans
Are shaping up so nice
See them smile
See them smile
You can say with Jaguar
The rental's worth the style
You can say your lady friends
Are levelled by your smile
You can say your bank account
Is always on the rise
You can say on your TV
The colour's always fine
See them smile
See them smile
You can say there's things in life
That I don't understand
And you can say if I get stuck
You're glad to lend a hand
You can say your stance looks good
But I just have to grin
Did you say your credit card
Is wearing awfully thin
See them smile, they'll watch you spend your money
See them smile
You may just have to carry more change
See them smile, they love to take your money
See them smile
You may just have to carry more change
