

## The One

Saga

Can someone tell me who I've got to pay  
To help me find a remedy?  
Now I'm not sure I can wait another day  
'Cause I'm my own worst enemy  
There was a time I thought I knew the way  
But that's all ancient history  
'Cause every time I feel that I am there  
I'm never where I want to be  
Tell me, "Why do I still dream about you?"  
I wonder where you'll be, when I'm gone  
Now I know you are the one  
I guess you've always been the one  
I don't know why I run away  
Every time I hear your name  
So maybe I should find another way  
It's time to come in from the rain  
"Why do I still dream about you?"  
I wonder where you'll be when I'm gone?  
Now I know you are the one  
I guess you've always been the one  
So, now I know you are the one  
Someone tell me who I've got to pay  
To help me find a remedy  
Now I'm not sure I can wait another day  
Now I'm my own worst enemy  
Why do I still dream about you  
I wonder where you'll be, when I am gone?  
I guess you've always been the one
