

You Look Good To Me

Saga

Diamonds covered by the water
I know where they are
close your eyes
and you'll see further
looking good so far
Take a picture , full exposure
one more day goes by
eyes wide open, over driven
leave them wondering why
If you know it
You should show it
You're hanging from a ladder I say
You look good to me
When you know it
You can show it
It really doesn't matter I say
You look good to me
Getting louder, by the hour
wondering where you are
through the wire, fell like fire
rising like a star
If you know it
You should show it
You're hanging from a ladder I say
You look good to me
When you know it
You can show it
It really doesn't matter I say
You look good to me
Climbing up, up on a ladder
Picture this
Climbing up, up on a ladder
I'll tell ya this
Shoelace undone on a ladder
what a place to start
hang on, so long doesn't matter
listen to your heart
If you know it
You should show it
You're hanging from a ladder I say
You look good to me
When you know it
You can show it
It really doesn't matter I say
You look good to me
