

# Love The Lie

Sage Francis

You gotta love the lie  
You gotta love the lie  
Love (love) life (life)  
Love (love) God, girls and lies  
I can't hear through those veneers  
But you keep speaking with those pearly whites  
Love the life that you live if it gives love back  
You aint gotta stay together for the kids  
If you want to disappear don't announce it  
Vanish in thin air and bounce quick  
Fix the cowlick slick your hair back  
Ride the rim bare back you stared at  
Lady Godiva might have been an exhibitionist  
I'm not here to judge voyeuristic fetishes  
If nobody looked its a closed book  
You could put your hang ups on a coat hook  
I'm from a puritanical land where they burn witches  
I'm the result of a welfare runnin up your sickness  
Cure never came jesus never helped  
We were all to blame god beat us with a belt  
If I heard your name I'd retreat into myself  
I won't hurt your name I'll keep it to myself with

Love (love) life (life)  
Love (God) girls and lies  
I can't hear you through those veneers  
But you keep speaking through those pearly whites

No legacy to claim no enemies to squelch  
No chemical imbalance that could remedy yourself  
Pedestals for the parents medicine is on the shelf  
Put the trophy in the spotlight watch as it melts  
Metal would've survive plastic is cheaper  
Ran into the fire she asked me to leave her  
I did what I could with the wood and the flammables  
Stood with the good little animals ran with the bulls  
Soot on my hands that were full put the good book on the mantle  
Burn baby burn you could serve as a candle  
Last thing I heard was her on the piano  
Last thing I saw was her being her self  
By beating her self to see if it could help

If I heard your name I'd retreat into myself  
I won't hurt your name I'll keep it to myself with

Love (love) life (life)  
Love (God) girls (girls) and lies  
I can't hear through those veneers  
But you keep speaking through those pearly whites

Love the lie  
Love the lie  
Love the lie
