Good Thing

Sage the Gemini

They be speaking on what they don't know Thye don't know because I keep it low When I go low she tell me "way to go" I make her act up, when I come back up She says her feelings too strong, make her wanna back up And I respond like "damn" Believe me when I tell you why I agree (Like damn) An hour later it was gon' be you or me (Like damn) Now I don't wanna let you go But there's something that you gotta know

This ain't nothing but dangerous We about to be over it Why can't it just be what it is Why can't it be what it is We're both getting emotional Same time getting so emotional Why can't it be what it is

I know you know we know We can make the good thing keep happening Good thing keep happening I know you know we know We can make the good thing keep happening Good thing keep happening

I ain't never felt the way you make me feel Continue so I know it's real Think about me like I know you will Fall for me, let it fall for me, give it all to me Stand in the middle of the floor, throw your broad to me This is real, yeah, this is real, let your guard down This is good shit, ain't no tiem to call it off now Now I don't wanna let you go, but there's something that you gotta know

This ain't nothing but dangerous We about to be over it Why can't it just be what it is Why can't it be what it is We're both getting emotional Same time getting so emotional Why can't it be what it is

I know you know we know We can make the good thing keep happening Good thing keep happening I know you know we know We can make the good thing keep happening Good thing keep happening (4x)
