

Goodnight Moon

Said the Whale

I said goodnight to the moon
I said goodnight to the mush
A red balloon
And a great green room
And a brush

I look out on the waves
I've been stuck here for days and days
On a ship you made with your magical ways
And your love

I was born in a little white blanket
I was born in the middle of a mountaintop

Oh que sera sera
Whatever will be will be
The future belongs to me
And I belong to you

If the seas get, they too rough
And when the going gets tough
I know you'll be there for me
Yeah you'll always be
And that's enough

I was born in a little white blanket
I was born in the middle of a mountaintop

You've got so much love
You've got so much love
You've got so much love
You've got so much love
You've got so much love

You've got so much love
You've got so much love
You've got so much love
Hey!
