

# One Step Closer

Saigon Kick

I am about  
Both feet and hand  
Safe and sound to my cross  
I will die  
For I have sinned  
Have mercy on my soul  
on my soul  
on my soul

One step closer  
To the setting sun  
Your skin's on fire again  
One step closer  
To the promised land  
Your mind's a liar again  
One step closer  
To the bleeding heart  
A bandage for the wound  
One step closer  
I the only one  
Cause you never could

Light and heal  
From my hand  
Burn the flesh of a mortal man  
I am the sign  
From the west  
The divine is laid to rest  
laid to rest  
laid to rest

One step closer  
To the setting sun  
Your skin's on fire again  
One step closer  
To the promised land  
Your mind's a liar again  
One step closer  
To the bleeding heart  
A bandage for the wound  
One step closer  
I the only one  
Cause you never could

One step closer  
To the setting sun  
Your skin's on fire again  
One step closer  
To the promised land  
Your mind's a liar again  
One step closer  
To the bleeding heart  
A bandage for the wound  
One step closer  
I the only one  
Cause you never could

One step closer  
To the setting sun  
Your skin's on fire again  
One step closer  
To the promised land  
Your mind's a liar again  
One step closer  
To the bleeding heart  
A bandage for the wound  
One step closer  
To the only one  
Cause you never could
