

## Russian Girl

Saigon Kick

Russian girl you come to me  
You are my whole entire world  
You talked me down from high above  
And slowly took me by the hand

Russian girl, stay with me  
You lay me down upon the sand  
And sing a song into the night  
Your eyes so blue, I drink them in  
And they fell my deepest need

Russian girl, stay with me  
I don't mind if we don't speak a word  
We don't have to talk about it anyway  
I just want to be the only one  
Let me say awhile please  
Let me say awhile  
Russian girl

You promise love and I fall down  
Proposition me my girl  
Stranger still, I can't resist  
You're simply overtaking me

Russian girl, stay with me  
I don't mind if we don't speak a word  
We don't have to talk about it anyway  
I just want to be the only one  
Let me say awhile please  
Let me say awhile  
Russian girl

Russian girl, stay with me

Russian girl you come to me  
You are my whole entire world  
You talked me down from high above  
And slowly took me by the hand

Russian girl, stay with me  
I don't mind if we don't speak a word  
We don't have to talk about it anyway  
I just want to be the only one  
Let me say awhile please  
Let me say awhile  
Russian girl
