

## Find Me a Boy

Saint Etienne

So many friends that I happen to see  
Have told me they're in love  
Oh how I wish it could happen to me  
And I'm asking the stars up above  
won't you find me a boy, just a nice looking boy  
Who will show me the way, who will teach me to say  
"I love you, yes I do", and who'll promise me too  
That he'll always be true, so that I'll never be blue  
I just wish for a gentle boy  
Someone who's sweet and kind  
Just a nice sentimental boy  
That's all that I'm really longing to find  
so many friends that I happen to see  
Have been telling me all about love  
Oh how I wish it could happen to me  
Is the only thing I'm thinking of  
so I'll find me a boy, just a nice looking boy  
Who will show me the way, who will teach me to say  
"I love you, yes I do", and who'll promise me too  
That he'll always be true, so that I'll never be blue  
so I'll find me a boy, just a nice looking boy  
Who will show me the way, who will teach me to say  
"I love you, yes I do", and who'll promise me too  
That he'll always be true, so that I'll never be blue
