

## Last Days of Disco

Saint Etienne

We just gotta go where it takes us  
Let nothing, nothing come, come between us  
Feel the magic in the cold night air  
Let the music catch us unaware  
We just gotta go where it takes us  
Any day we could vanish in a cloud of dust  
Inhibition, don't get in the way  
'Cause tomorrow is another day  
Let's dance  
Cut a rug together  
And now I know you better  
It's the way that I want it to be  
Let's dance  
Cut a rug together  
Looking at forever  
It's the way that I want it to be  
We just gotta move with the right time  
All I know is I would risk it all to make you mine  
Won't you tell me if you're out of reach  
Just the thought of you it leaves me weak  
Let's dance  
Cut a rug together  
And now I know you better  
It's the way that I want it to be  
Let's dance  
Cut a rug together  
Looking at forever  
It's the way that I want it to be  
Waking up and feeling down  
Meet some friends in Chinatown  
Tell me if I'm moving too fast  
Donna says it's time to go  
Catch a late night picture show  
Let's make this moment last  
Yeah  
Let's dance  
Cut a rug together  
And now I know you better  
It's the way that I want it to be  
Let's dance  
Cut a rug together  
Looking at forever  
It's the way that I want it to be  
Let's dance  
Let's dance  
It's the way that I want it to be  
Let's dance  
Let's dance  
It's the way that I want it to be
