

Lover Plays The Bass

Saint Etienne

Let me put you in the mood, let me try to break on through.
You know that I will.
Let me take you back again, let me climb aboard that train,
Leave time standing still.

Listen while her lover plays the bass,
Lets groove a little now.
Listen while her lover plays the bass,
Lets groove a little now.
As you slowly play your tune, an your smoke fills up the room.
I'm closing my eyes, an the radio's still on, an I'm dreaming o
f song.
I feel hypnotised.

So lets groove a little now.
Let's groove a little now.
