

New Thing

Saint Etienne

Our Father, who art in Heaven
Please, stay there

New thing, it's such a new thing
You got me where you want me
You got me where you want me, ooh yeah

New thing, it's such a new thing
You got me where you want me
You got me where you want me, ooh yeah

Could it be we'll stay together, will I ever know?
If this night could last forever, maybe then I'll know
Could it be we'll stay together, will I ever know?
If this night could last forever, maybe then I'll know

New thing, it's such a new thing
You got me where you want me
You got me where you want me, ooh yeah

New thing, it's such a new thing
You got me where you want me
You got me where you want me, ooh yeah

New thing, it's such a new thing
New thing, it's such a new thing
New thing
