

She's the One

Saint Etienne

She
She's the one
She
She's the one
She's the girl who thinks nothing of
Breaking up two people in love
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
She
She's the one
She
She's the one
Saw her again last night
I saw her with another guy
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
She
She's the one
She
She's the one
In this world of ups and downs
She's the one
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
He kissed me
He kissed me
He hit me
And it felt like a kiss
In this world of ups and downs
In this world of ups and downs
In this world of ups and downs
