## **Sometimes in Winter**

Saint Etienne

When I come home in the evening Cry at the silence waiting for me, and He bring me a warm cup with coffee Instead of the love you know that I need Wait, wait. Sometimes in winter, love can go astray. Lonely, don't you get lonely, don't you get lonely for me. He cradled my head as he held me I swore I could feel the earth turning round But love seemed to go with the season Now touching you feels like rain coming down Sometimes in winter, love can go astray. Lonely, don't you get lonely, don't you get lonely for me. Little girl, she stands alone This is search until we find, gee Now we're on the road to hell... Sometimes in winter, love can go astray. Lonely, don't you get lonely, don't you get lonely for me. For me. For me. For me.

Deepest winter will set in.
