

Mister Blow

Saint Lu

You're waiting long, you're on the wrong side
And doing wrong, right?
You're waiting long
Until you run

You cut it down to get it round
Anti-collision-light
You cut it down
Until it's gone

You're still afraid, if someone says
You are doing wrong, right?
You're still afraid
If someone has

Wanna be „made“, haircut and shave
Like Wayne in „Dark knight“
Wanna be „made“
Like someone brave

Until you go, and you show
You're no hero, but a pro
Mister Blow
You will never know

If you give in, by prelim
When the mirror said you'll win
Mister Blow
You will never know

Till you go
Risk a blister, Joe go risk a glow

How many times did you deny
To toe the line just to try?
And did you ever
Try to fly?

How many games didn't you play
Cause you're no bat with a cape?
How many more names
You gonna fake?

Until you go, and you show
You're no hero, but a pro
Mister Blow
You will never know

If you give in, by prelim
When the mirror said you'll win
Mister Blow
You will never know

Till you go
Risk a blister, Joe go risk a glow
Risk a blister, Joe go risk a glow
Ask the mirror Joe and then just... go!
