

Do Everything Now

Saint Motel

Let's all get pregnant and ditch our kids,
It doesn't count if it's just the tip,
Let's put the con back in consequence,
This time is your time, let's get it on, get it on.

Grab your neighbor and suck their face,
Don't tell your lover but you love the taste,
I'm here to say that your sin's erased,
No more worries, you're free, free, free, free.

Do everything now, do everything now.
Do everything now, do everything now, right now.
Do everything now, do everything now.
Do everything now, while we're still young.

Sick of waiting, then wait no more,
You want some lovin' just buy a whore,
And for a threesome then by one more,
This life is your life, just get it on, let's get it on.

The clock is ticking, make the call,
Drag your neighbor to the bathroom stall,
Don't spill your milkshake on the dirty floor.
No more worries, you're free, free, free, free.

Do everything now, do everything now.
Do everything now, do everything now, right now.
Do everything now, do everything now.
Do everything now, while we're still young.

Make me laugh, make me dumb, make me cry, make me come,
Make it so I never die, and take the pain away.

Make it hurt, make it sting, make me fly, make me bleed,
Make it so we never die, and take the pain away.

Do everything now, do everything now.
Do everything now, do everything now, right now.
Do everything now, do everything now.
Do everything now, do everything now, right now.
Do everything now, do everything now.
Do everything now, do everything now, right now.
