

# Local Long Distance Relationship

Saint Motel

Trying to get back  
Back to the place that we were  
Pure and dangerous  
Always just us versus the world  
When we dated  
Never a care on our minds  
Grown complacent  
Never the time to make the time

I had the damnedest day  
You don't hear what I say  
Your head's up in the clouds  
I'm sitting next to you  
In the exact same room  
We're right here in LA

It's like you're in New York  
LA to New York  
LA to New York  
It feels so far  
LA to New York  
LA to New York  
Are we that apart?

"Whether we can", keys to the cubicle  
Gold, tees, and sweat pants  
They guarantee to keep it cold  
Feel the distance, miles apart  
In our beds, stay persistent  
Gotta get out, inside our heads

I had the damnedest day  
You don't hear what I say  
Your head's up in the clouds  
I'm sitting next to you  
In the exact same room  
We're right here in LA

It's like you're in New York  
LA to New York  
LA to New York  
It feels so far  
LA to New York  
LA to New York  
Are we that apart?

I know it's hard to say just what this is  
A local long distance relationship  
I know it's hard to say just what this is  
A local long distance relationship

Come back, to me  
Come back, to me  
Come back, to me  
Come back, to me  
Baby come back, to me  
Come back, to me

Come back

It's like you're in New York

LA to New York

LA to New York

It feels so far

It's like you're in New York

LA to New York

LA to New York

It feels so far
