

# Be There

Saint Raymond

Throw me a lifeline  
for the first time  
I'm on a sinking ship  
going down with it

I don't know why  
I'm in need of it tonight  
But I can't get back  
off this beaten track

Every time I'm far away from you  
far away  
I forget just how it is with yo  
how it is  
I don't want to make it hard to bear  
but every time you call

I wanna be there  
I wanna be there  
I wanna be there  
You know I wanna be there

So you told me  
told me I'd see  
Nothing's gonna change  
All will stay the same  
You can find me  
you know where I'm gonna be  
Dreaming home sweet home  
chasing your shadow

Every time I'm far away from you  
far away  
I forget just how it is with you  
how it is  
I don't want to make it hard to bear  
But every time you call

I wanna be there  
I wanna be there  
I wanna be there  
You know I wanna be there

I wanna be loved  
I gotta be brave  
Nothing else to say  
I wanna be loved  
gotta be brave

I wanna be there  
I wanna be there

I wanna be loved  
I gotta be brave  
Wish that I could make a change  
I wanna be loved  
I gotta be brave

Guess I'll have to find a way  
I wanna be loved  
I gotta be brave  
There's nothing else to say  
I wanna be loved

I wanna be there  
I wanna be there  
I wanna be there  
You know I wanna be there

I wanna be loved  
I gotta be brave  
Nothing else to say  
I wanna be there  
I wanna be there
