

Great Escape

Saint Raymond

Oh my brother now
You keep me in safe hands
I know you understand
'Cause I found a lover now
She's more hurt than it's worth
And I dunno which is worse

That I still want it
But I don't need it
I keep on leaving
But I always turn

Brother I'll show you
This storm's gonna pass us forever
Just hold on we'll make it through

I know things are changing
Come with me
we'll brace it together
You know that you want to

Could this be our great escape?
Our great escape
Our great escape
Could this be our great escape?
Our great escape
Our great escape

Oh my brother now
The city lights they shine
I'm scared of what I'll find
The waves are crashing down
Will I get back out?
Leaves me in doubt

But you say I want it
But I don't need it
I keep on leaving
Then turn back around

Brother I'll show you
The storm's gonna pass us forever
Just hold on we'll make it through

I know things are changing
Come with me
we'll brace it together
You know that you want to

Could this be our great escape ?
Our great escape
Our great escape
Could this be our great escape?
Our great escape
Our great escape

I see a light to guide us through the dark

This is our great escape
Our great escape
Our great escape

This is our great escape
This is our great escape

Could this be our great escape ?
Our great escape
Our great escape
Could this be our great escape?
Our great escape
Our great escape

I see a light to guide us through the dark
This is our great escape
Our great escape
Our great escape
