

Never Let You Go

Saint Raymond

In the past I've been a fool
It's a truth I've lived through
All I know is I must keep you by my side
Keep you by my side

If it rains then let it rain
If it hurts I'll share the pain
All I know is I must keep you by my side
Keep you by my side

And oh I always wanted to belong
I always wanted to belong

Will you stay with me tonight?
'Cause I'm tired of saying goodbye
Yeah the truth I can't deny
I'll never let you go
I'll never let you go
I'll never let you go

In the past I've been a wreck
Wasted time I still regret
If we forgive and forget
I'll hold you in my arms
Hold you in my arms

If the tides change
let them change
If it hurts
I'll share the pain
When the clouds break
I will hold you in my arms
Hold you in my arms

And oh I always wanted to belong
I always wanted to belong

Will you stay with me tonight?
'Cause I'm tired of saying goodbye
Yeah the truth I can't deny
I'll never let you go
I'll never let you go
I'll never let you go

I'm holding out for holding out for
I'm holding out for you
I'm holding out for holding out for
I'm holding out for you

Will you stay with me tonight?
'Cause I'm tired of saying goodbye
You're the truth I can't deny
I'll never let you go
I'll never let you go
I'll never let you go

And I'll never let you go

Will you stay with me tonight?
'Cause I'm tired of saying goodbye
You're the truth I can't deny
And I'll never let you go
