

## Blessed Night

Saint Vitus

Cross my palm with silver light  
My steed is strong my sword is sharp  
Upon us now this blessed night  
I will heed the message of my star  
Priestess queen will grace my throne  
With the wisdom of eternity  
Warrior king trusts her alone  
To guide our planets destiny  
Blessed night, this blessed night  
Her beauty is as timeless as  
Dark forlorn galaxies  
The sapphire pendant on her breast  
Holds the secrets of the black  
Bathe my heart in bloodborne lust  
Starborn bloodline's warrior tribe  
Cross my blade if you must  
I defend my realm with your lives!  
Blessed night, this blessed night  
Her beauty is as timeless as  
Swirling cosmic ecstasy  
Her flesh as pale as our moon glows  
With wisdom of eternity  
Cross my palm with crystal light  
My sword is sharp my steed is strong  
Upon us now this blessed night  
For my queen, for my star
