

# (I Am) The Screaming Banshee

Saint Vitus

I am the screaming star  
You don't remember

I am the jone who started  
The fucking game

I am the screaming banshee  
That you don't recall

I am the one who  
You think has lost it's name  
Listen and you will hear  
That I have been there  
I'm the only one  
Keep your head alive

Take a good look around  
I am the one who's left  
I am there, man  
When it's said and done

You try to ignore me  
But that won't work, dear

I am the tortured sound  
Within your ear  
Just like the needle, hot  
Piercing inside  
I will change your life  
Control your fears
